

HELP THE CANANDAIGUA FIRST ROBOTICS TEAM GET TO THE WORLD CHAMPIONSHIP IN HOUSTON TX

STORY

We are the Canandaigua FIRST Robotics Team - Team 3003 TAN[X], and we're going to Houston! Every year we design, build, program, and operate an industrial-sized robot that plays a complicated field game while also managing our fundraising, community outreach, and unique team brand.

On March 18, 2023; in alliance with Teams 1591, 3015, and 6868; we won the FIRST Robotics Finger Lakes Regional in Rochester, NY! This win qualifies us to compete with over 600 teams from around the world at the FIRST Championships in Houston, TX, on April 19-22.

This accomplishment adds approximately \$35,000 to our annual budget. To keep travel costs low for team members and volunteer mentors, we are asking for your help. Please consider a gift of any size to help us take Icarus, the robot, and our team members to Houston!

THIS YEAR'S GAME

In CHARGED UP, teams are inspired to see the potential of energy storage in a new light as they compete to charge up their communities. This challenge involves lifting cones and cubes and a "coopertition" bonus. It also introduces a pad where you have to fit three robots.

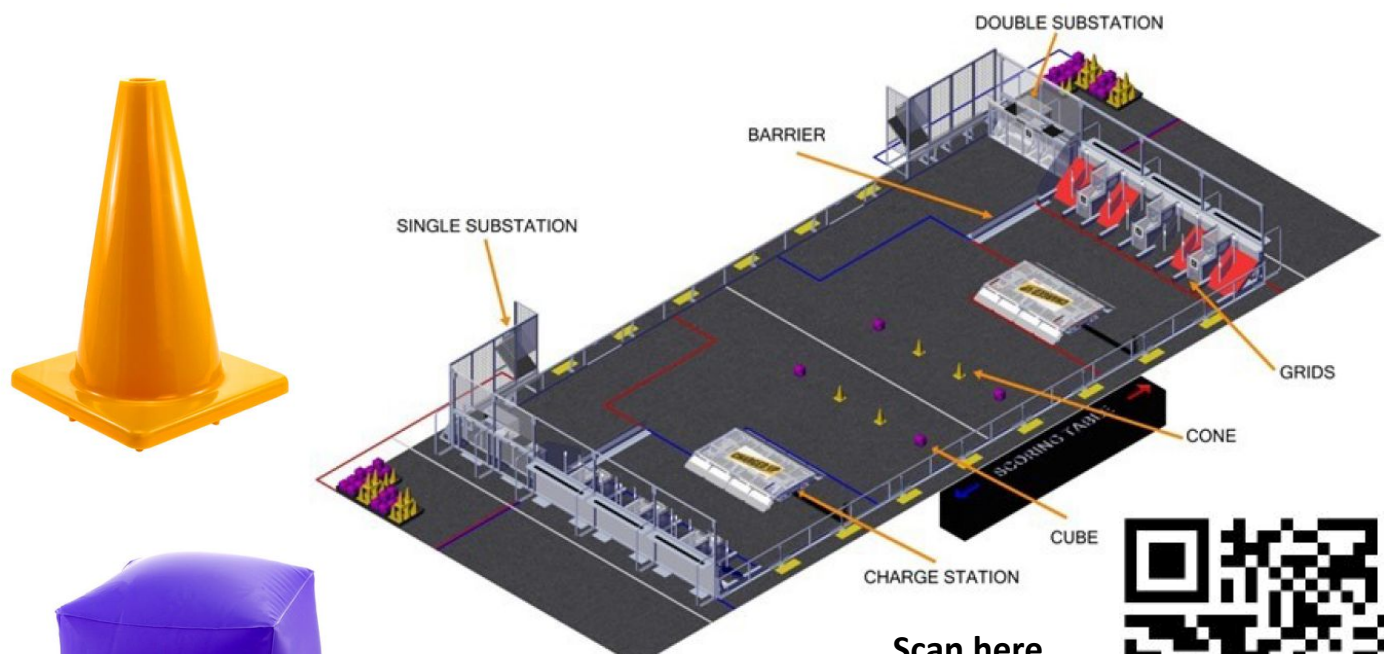

Each match begins with a 15-second autonomous period, during which time alliance robots operate only on pre-programmed instructions to score points by:

- Climb onto and attempt to balance on the charge station
- retrieving and scoring cones onto poles and cubes on shelves

In the final 2 minutes and 15 seconds of the match, drivers take control of the robots and score points by:

- Continuing to retrieve cones and cubes from one side of the field and score them on the other.
- Driving as many robots onto the balancing charge station as possible at the end of the match

The alliance with the highest score at the end of the match wins!

SPONSORSHIP LEVELS

Our sponsors are incredibly important to us, so we would like to show our appreciation. Each sponsorship level has benefits.

GOLD Sponsor

\$5,000+ in money, goods, or services

- Request Team 3003 robots to appear at company events
- Framed photo for display
- Recognition in official team name announced at competition (2-3 per year)
- Large logo placed prominently on robot, a banner in the pit, team t-shirt, website, trailer going to TX and all printed media

SILVER Sponsor

\$1,000+ in money, goods, or services

- Team photo
- Small logo on robot, banner in the pit, team t-shirts, website linked to your website and on all printed media

BRONZE Sponsor

Up to \$1,000 in money, goods, or services

- Name on robot, banner in the pit and team website
